Liz Robertson and Ju Rocha
Robertson + Rocha Design Studio

Dear Ju Rocha,

We are delighted to submit our proposal for the Marina Del Rey Bakery build out for Winston Pies.

Description:

This is a tenant improvement project to build a bakery shop for Winston Pies ("Client") at 4625 Admiralty Way Suite 105. The space is a newly constructed empty shell. The intent is to open a "To Go" retail and café space for the Winston Pies. There are no plans for interior seating. Pies will be baked at a commissary and brought to the store for slicing and selling. The goal is to open the new shop at the end of October/ beginning of November.

For the purposes of this work, Shi Architect ("SA") will be contracted under Robertson + Rocha Design Studio ("Designer"). The Designer will lead this project, and will communicate all relevant brand guidelines and designs for this project to SA. All project communication with the Client will be channeled through the Designer.

The Designer's *Design Concept and Plans* will serve as the design intent for SA to follow. SA will provide architectural services and coordinate MEP services. Once the completed submittal drawings are signed off by Designer and/or Client, SA will submit to the county and work to obtain permits for the Client's use in building out the space.

Scope of Work:

1. Provide stamped architectural submittal plans based on Designer's *Design Concept and Plans*.
2. Coordinate with Client's Kitchen Consultant.
3. Coordinate and provide stamped Mechanical, Electrical, and Plumbing (MEP) submittal drawings.
4. Once approved. Submit stamped drawings to LA County Building and Health Departments for architectural, MEP, and environmental health plan checks.
5. Coordinate plan check comments with consultants, Designer, and Client to obtain all clearances required for the *Ready To Issue* (RTI) set.
6. Package all drawings including interior design drawings into an *Issued For Construction* (IFC) set.

Fee:

The scope above will be performed for a lump fee of **$15,000**, with a $7,500 deposit. $4,000 to be paid upon plan check submission. The remaining balance to be paid upon RTI set. Any *Additional Service* will be performed at the rate of $150/ hour and will require prior written authorization.

Included in Fee:

1. Architectural and MEP submittal drawings
2. 2 site visits during design phase.
3. All other services will be treated as *Additional Service*

Not Included:

1. No As-Built services. As-Built drawings in DWG format will be provided by client.
2. This is an interior renovation project. There is no planned exterior scope of work at storefront or exterior landscaping.
3. There is no planned structural scope of work. Structural drawings and calculations are not provided.
4. The following design items are excluded from the base contract and are treated as deferred submittals by others: Signage, Low Voltage, Security Systems, Fire Alarm and Fire Protection.
5. Visualization or Rendering services are not included.
6. Plan checking fees are not included. Owner will be responsible for timely payment of all plan check submission fees and related permit fees.
7. No Bidding coordination and Contract negotiation with General Contractor (GC) or Kitchen Equipment Contractor (KEC).
8. Construction Administration is not included and can be performed on an hourly basis as an *additional service*.

Concerns:

1. I'm concerned about this tight project schedule. I've included a preliminary timeline for discussion purposes.

Timeline: (see preliminary schedule attached for more details)

Architectural and MEP submittal drawings	6-8 weeks*
Estimated Plan Check Review and Corrections	2 months**

* We will need up to 4 weeks to coordinate and finalize submittal plans after receiving Kitchen consultant's Point of Connection drawings.
** We recommend that client pays for county to perform expedited plan check to keep the project on schedule.

General Conditions:

To facilitate collaboration, we will share all relevant documents via a Box folder.
The Documents are instruments of service in respect to this specific project. The Documents are not to be used in conjunction with or for any other project except for that which they were originally intended. The Documents are property of the Architect whether the work for which they are prepared be executed or not. The Client shall not rely in any way on any Document unless it is in printed form, signed and sealed by the Architect or Engineer.

A nonexclusive license is given to the Client to reproduce documents for constructing, using and maintaining the project, and to authorize the Client's contractor/ subcontractors/ material suppliers to reproduce applicable portions of them for execution of the work.

This agreement may be terminated by either party upon written notice should one party fail substantially to perform in accordance with its terms, through no fault of the party initiating the termination. This agreement may also be terminated in the event the client permanently abandons the project. In the event of termination, the Architect shall be compensated for work done to date. The Architect shall not be liable to the client for any consequential damages, which are a result of such termination or suspension of the contract.

This proposal is valid for thirty (30) days. Should you have any questions or concerns please do not hesitate to contact me.

I look forward to working with you and assure you that, if entrusted with your project; this will receive my most careful attention and will result in a project we can all be proud of.

Sincerely,
